To Whom it May Concern,

I would like to take the time to acknowledge BIS Kids and their efforts in the FaCT Family Resource Centers in Orange County. This program has helped numerous children who have to endure the trauma of addiction in their families. We are fortunate to have had many of their weekend workshops and the response has been extremely positive. Both the children and their parents give rave reviews about lessons learned. Each participant leaves with the sense of emotional validation. They now know other people live with the ills of addiction yet there is tremendous hope.

BIS Kids is an amazing organization and we could not be more pleased with our ongoing collaboration with them. We appreciate the founder and director, Victoria Morgan who has the passion and energy to move forward in every attempt to reach as many children as possible. We love and respect the direct service staff and admire their expertise and kindness with the children.

Thanks to the Board of BIS Kids as your support is key to growing this much needed program. We look forward to 2010 being a great year and to working with all of you.

Sincerely,

Diana LaRusso
FaCT Program Coordinator
